

SEA OTTER CLASSIC

28th Sea Otter Classic - 2018

Volunteer Communication Support INCIDENT/EVENT ACTION PLAN

OPERATIONAL PERIOD 4/19-22/2018 @ 0600-1930

FINAL¹ DRAFT – 04/18/2018

UPDATE / SUPPLIMENTS MAY BE ADDED AT EVENT TIME
ASSIGNMENTS WILL SHIFT AS CONDITIONS CHANGE

INCIDENT OBJECTIVES	1. Incident Name	2. Date	3. Time
4. Operational Period	Sea Otter Classic 2018	3/29/2018	22:38
Date: 4/19/2018 - 04/22/2018 Time: 0600 - 1800			
<p>5. General Control Objectives for the Incident (include alternatives)</p> <ul style="list-style-type: none"> • Amateur radio operators will primarily be “Back Country” communicators entrusted with reporting medical emergencies, logistics, and health and welfare traffic throughout the course in coordination with the SCRAMP fire/medical dispatchers. In addition on Saturday, ham operators will support communications for the Carmel Valley Route of the Gran Fondo. • Observe and report potential or existing hazards to net control. 			
<p>6. Weather Forecast for the Period</p> <p>Most current at the time of this printing the Weather Forecast is attached. - Subject to change</p>			
<p>7. General Safety Message</p> <p>Amateur radio communicators should stay out of the riding path placing their vehicle as far away from the riding path as possible to avoid collisions. The best possible parking space is either well behind the riders if they are entering the roadway or if they will be in your path at a "feed zone," park down the road and past where they will be turning. If parking down hill, the vehicle should be placed 3-4 car lengths down the road, but not in the directions the riders will be turning.</p> <p>A "cross band repeater" is planned, but be aware of others that may use the same frequency or subfrequency tone. Radio amateurs in the vicinity of marshal points should stay well away from the cyclist path and be alert for riders that might suddenly lose control.</p> <p>When exiting the “BLM Public Lands” be especially watchful for stray and recreational bicyclists, occasional horses and range sheep, and yield the “right-of-way” to any. Do NOT stray into the “bush.” There is possible unstable military explosive ordnance (artillery shells, ammunition, hand grenades, etc.) even in the non-posted areas, but most of these areas are posted. Also, native poison oak flourishes along with <u>ticks</u>, some as small as a pin head. Native plants should not be trampled, and some are recovering or delicate. Over 44 different species of endangered and rare plants and animals live here on the Fort Ord Public Lands (FOPL). Some areas are posted “Native Plant Preserve.” Thanks for your cooperation. Snakes have been spotted in the past as well, so stay alert!</p>			
<p>8. Attachments</p> <ul style="list-style-type: none"> • ICS 204 (4) • ICS 205 Communications Plan • ICS 206 Medical Plan • Incident Map • Weather Forecast (after 4/14/2018) • ICS-214 Incident Log

Prepared By (Communications Unit) Timothy S. Takeuchi - COM-L (T) - W6TST (831) 245-7895						Repeater Location: Laguna Seca SCRA County: Monterey; State: CA			USNG: 10S FF 11864 50216 36°35.45243'N, 121°44.96762'W		

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

8. MEDICAL EMERGENCY PROCEDURES

NOTE: Monterey County Regional Fire District (MCRFD) has command control of all emergency and medical decisions in the field. Information in this plan is only to be used if MCRFD is not available or reachable.

- Contact Net Control - Specify Exact Location; Nature of the Emergency

- If unable to reach net control, call 911 from your cellular phone. Then notify net control when possible for information and awareness of the incident.

SBC-ARA ICS-206

Decision Support Briefing for Sea Otter Classic Communications/ARES District Emergency Coordinator

Overview

Cool, but dry weather will prevail over the region today and Wednesday. A weak weather system will pass by Wednesday night and early Thursday bringing showers to the Monterey Bay Area. Drier and warmer weather returns Thursday afternoon into the weekend.

National Weather Service Forecast for 4 Miles ESE Seaside CA

For the latest forecast, go to <http://forecast.weather.gov/MapClick.php?lat=36.58&lon=-121.75>

Today: Sunny, with a high near 62. West northwest wind 5 to 10 mph increasing to 11 to 16 mph in the afternoon. Winds could gust as high as 21 mph.

Tonight: Increasing clouds, with a low around 41. West northwest wind 10 to 15 mph becoming light and variable after midnight. Winds could gust as high as 20 mph.

Wednesday: Partly sunny, with a high near 60. Light and variable wind becoming west 11 to 16 mph in the morning. Winds could gust as high as 21 mph.

Wednesday Night: A 40 percent chance of showers. Mostly cloudy, with a low around 42. West wind 5 to 14 mph becoming south in the evening. Winds could gust as high as 18 mph. New precipitation amounts between a tenth and quarter of an inch possible.

Thursday: Mostly sunny, with a high near 62. West northwest wind 10 to 20 mph, with gusts as high as 25 mph.

Thursday Night: Mostly clear, with a low around 42.

Friday: Sunny, with a high near 68.

Friday Night: Clear, with a low around 44.

Saturday: Sunny, with a high near 71.

Saturday Night: Mostly clear, with a low around 47.

Sunday: Mostly sunny, with a high near 71.

Sunday Night: Mostly clear, with a low around 47.

Monday: Sunny, with a high near 70.

For Further Information

- Contact National Weather Service operations 24 hours a day at 831-656-1717 (unlisted)
- For specific support of emergency response incidents, request a spot forecast by contacting the NWS forecast office by phone or online.
